Little Welshman Professes Optimism When  
Everyone Else Has Lost Heart—Says That  
Difficulties Caused the Conference and  
That They Must be Overcome at Genoa

(By The Associated Press)  
GENOA, May 8.—Optimism was still professed tonight by Premier Lloyd George. The little Welshman was still smiling but most of the delegates no longer have the heart to smile.

"Many difficulties worse than this have been passed and we shall pass this one," said Mr. Lloyd George to the correspondents tonight, after a frantic day in which he conferred with nearly all the leading figures at the conference.

"We have come to Genoa to overcome such differences; otherwise, why have the conference?"

Genoa echoed with all sorts of rumors about the breaking up of the entente and the imminent dissolution of the economic conference.

## OFFICIALS FEAR RACE WAR MAY START IN TEXAS

Lynching of Shadrick  
Green Makes Situ-  
ation Precarious

(By The Associated Press)  
MEXIA, Texas, May 8.—The situation in Freestone county growing out of the lynching of Shadrick Green, young negro said to have been implicated in the murder of Eula Ainsley, 17 years old white girl, by the alleged confession of Snap Curry, one of three negroes burned at a stake for the crime Saturday morning is a precarious one, according to the officials there.

Green's bullet-riddled body was found hanging to a tree between Teague and Kervin, east of here early today. There was nothing to connect Green with the crime other than the alleged reference to him in Curry's confession.

It is believed that the negro was first shot to death and his body then suspended from the tree. Green was held by officers on suspicion last Friday, but was released after being questioned.

Fears of an uprising among negroes of the county to avenge the death of the four members of their race, led Sheriff W. M. Mayo to send an urgent telegram to Gov. Neff for state rangers. Governor Neff responded by ordering two detachments of rangers to leave Austin for Freestone county tonight but this order was cancelled late tonight when Sheriff Mayo sent another telegram stating that he had the situation in hand.

Officials tonight announced they would be guided altogether by developments.

At Kervin where the triple cremation occurred, conditions today were reported normal.

## MOROVICH VIEWED BY KENTUCKIANS

LOUISVILLE, Ky., May 8.—Morovich, probably the most discussed horse in the country and apparently the favorite for the Kentucky derby spent the most of his first day at Churchill Downs being viewed by a throng of Kentucky. Comment on Benjamin Block's unbeaten Runnymede-Hymn colt ranged from extravagant praise because of his conformation to criticism for his lack of size. But season turf men explained that mere size has little to do with it. Can he stay for a mile and a quarter, the derby distance? was the only question asked.

Morovich will not be seen in racing form on the course on which he is raced next Sunday until tomorrow when Fred Burlew, intends to work him a fast six furlongs. Today he merely was jogged around the track by an exercise boy. The colt is regarded in prime condition and ready to go.

Turf men accustomed to handling sensitive thoroughbreds comment on his remarkable disposition. One of the outstanding developments of the day in connection with Morovich was the statement by his trainer that he would start in no handicaps this year but would confine his efforts to the three year old futurities for which he is eligible.

Mrs. James T. Smith of North Prairie street received word yesterday of the arrival of a daughter at the home of Mr. and Mrs. Fred German in Chicago. The young lady is named Shirley, and Mrs. German is a daughter of Mr. and Mrs. Smith.

## ILLNESS OF JUDGE IS CAUSE OF HALT IN SMALL'S TRIAL

Judge Edwards Con-  
fined to Bed by Blood  
Poisoning

(By The Associated Press)  
WAUKEGAN, Ill., May 8.—Governor Small's trial halted again today when Judge Edwards was confined to his bed by blood poisoning in his right arm.

Court was ordered adjourned until Wednesday morning at ten o'clock. If the judge is not able to resume work by that time plans for calling in one of the other judges of the circuit will be considered, it was said.

The other judges are Edward D. Shurtliff of Marengo and Arthur Welsh of Rockford.

In event a change of judges should become necessary it will not affect the eight jurors already selected and sworn. The new judge would take up the work where it was left off last Friday.

Judge Edwards injured a finger on his right hand in a bowling tournament ten days ago. Over the week end infection developed and today the entire right arm was so badly swollen that the judge was unable to leave his bed.

The attending physician said the infection was slight, but will not be able to say before tomorrow whether Judge Edwards will be able to preside in court Wednesday.

Governor Small spent the day signing state road bonds. Bonds with a face value of \$4,000,000 were brought to Waukegan from Springfield last week.

Canvassing Board to Meet.  
Tomorrow the state canvassing board will meet here to canvass the result of the April primary.

Chief interest in canvass centers is whether Mrs. Winnifred Mason Hick was won the Republican nomination to fill the unexpired term as congresswoman-at-large of her father, the late Congressman William B. Mason of Chicago.

The members of the canvassing board are Governor Small, Louis Emmerson, secretary of state; Edward Brundage, attorney general and Andrew Russell, state auditor.

The meeting of the board will mark the first appearance in Waukegan during the governor's trial of Mr. Brundage, the directing figure in the governor's prosecution on charges of conspiracy to embezzle state funds.

The twelve men who spent the week on the jury, eight of them sworn and four tentatively chosen took advantage of the vacation to go fishing.

The outer breakwater at the harbor mouth was lined with jureymen, bailiffs, other court attaches, newspapermen, photographers and telegraphers.

SAYS HE SOLD NEAR  
BEER FOR REAL STUFF

Chicago, May 8.—Daniel W. Davis came to Chicago from New York to make \$1,000,000 selling "near beer" under the guise of real beer to residents of the gold coast, the home of many of Chicago's wealthiest citizens.

Today he sat behind the bars in the lockup in the federal building and defied prohibition agents to prove that the "kick" in his brew registered more than one half of one per cent.

"I came here all the way from New York," he told federal officials, "because I knew from newspaper reports that Chicago was one of the best cities in the country to make money on booze."

"Here was my proposition: I knew too, that they would buy beer if it was delivered safely to their homes. You know after three years the average man forgets the taste of real beer. He can be fooled no the near stuff."

"So I bought up a lot of near beer and just sold it as near beer to the names of men I found in the 'blue book.' They never knew the difference."

CHINK WAR ENDS  
RATHER SUDDENLY

Tientsin, May 8.—The war between the forces of General Wu Pei Fu and General Chang Tso-lin is over as far as Tientsin is concerned. The last organized body of Chang's troops, the second cavalry division, surrendered and gave up its arms eight miles from Tientsin early Monday morning. The defeated men were given new clothing and \$5 each.

They also were allowed to retain their horses and were promised transportation to their homes.

BALLEW FUNERAL  
SERVICES POSTPONED

Ardmore, Okla., May 8.—Funeral services of Bud Ballew, postponed from yesterday to today, were again postponed on account of the continued rains.

Ballew, one of the few survivors of the old "gun fighting" days of the southwest, was shot and killed Friday by Chief of Police McCormick at Wichita Falls, Texas.

## FLEXIBLE TARIFF SUBJECT OF LONG DEBATE IN SENATE

Many Senators Join in Gab  
Fest That Lasted  
All Day

(By The Associated Press)  
WASHINGTON, May 8.—An attack on the flexibility tariff plan proposed by the senate finance committee on the recommendation of President Harding was launched today in the senate and during the four hours debate Chairman McCumber, in charge of the tariff bill announced that some of the objections raised to the plan would be considered by the committee before final senate action on it. Senator Walsh, Democrat, Montana opened the discussion by citing many authorities and court decisions to support his argument that the provisions were unconstitutional.

Sensors Underwood of Alabama and Simmons of North Carolina, the Democratic leaders joined him arguing that for the first time in the history of the country it was proposed to protect the profits of American manufacturers.

Chairman McCumber and Senator Smoot of Utah, Ranking Republican, on the finance committee defended the plan the former insisting that if the American producer raised his price to an exorbitant figure it was not contemplated that the president would increase tariff duties to protect him. Senator Smoot expressed doubt that the president would have to act in more than one case out of a thousand and added that the rule laid down under which he could act was so plain that there was no doubt about its constitutionality.

Senator Walsh told the senate that the constitution specifically referred to congress the power to lay and collect taxes and import duties and that congress could not delegate this authority.

Senator McCumber, speaking of the constitutionality of the proposed provisions declared that the plan outlined did not approach in broadness the law under which the interstate commerce committee operated.

SHERIFF PETERS  
FAILS TO HONOR  
SMALL'S PARDON

Women Held in Jail for  
Three Years are  
Still There

(By The Associated Press)  
CHICAGO, May 8.—Despite the fact that executive clemency was extended by Governor Len Small to the six women serving jail sentences for violating an anti picket injunction three years ago during a cigar makers' strike, the prisoners spent another night in confinement.

The pardons were received tonight by H. W. C. Laubenheimer, deputy sheriff, who immediately consulted with John Healy, attorney for Sheriff Charles W. Peters. After the attorney had ruled that Governor Small did not possess the power to release persons held in civil contempt matters it was decided to hold the women until morning.

"If we were appealing to popular sentiment we would release the women immediately," declared Deputy Sheriff Laubenheimer, "but as we must adhere strictly to the legal phase of the situation it became necessary to hold them. Their release would be a grave step and Sheriff Peters is confronted with a bad situation. Such conditions arise, however, and we must face them the best we can and in so doing must adhere strictly to the letter of the law."

The governor's action was the direct result of a hearing by Judge Dennis Sullivan who sentenced the women originally after he had granted the injunction to the American Cigar Company. The judge, the counsel for the cigar company and an attorney for one of the prisoners searched the statutes for some precedent whereby they might be released, but decided that the only hope lay in the pardon by the governor.

Since the original strike all six of the women have married. Four of them brought children to the jail and two of them, it was learned will soon become mothers.

WE SHOULD WORRY  
ABOUT THE LANGUAGE

Chicago, May 8.—The question of whether menu cards should be in English or French will be one of the subjects of debate at the National Hotel and Restaurant Equipment Exposition which opened here tonight.

Anton Negri, a chef, declared it was impossible to Americanize the carte de jour because cooks have been trained in foreign terms.

J. H. Austin, a steward, maintained that menus must be printed in English because the patrons liked to know what they were eating.

CUT 30 MINUTES

Chicago, May 8.—A cut of 30 minutes in the running time of the Denver Limited between Chicago and Denver was announced by the Burlington railroad today. This train will be restored to the service on May 28, its running time being 27 hours and 25 minutes.

## DEMOCRATS OPEN FIRE ON BUDGET REPORT OF DAWES

Characterize Alleged  
Savings as Nothing  
but "Bunk"

(By The Associated Press)  
WASHINGTON, May 8.—Sharp Democratic attacks were made in the house today on the report by Director Dawes of the budget bureau transmitted to the appropriations committee by President Harding, setting forth reductions in government expenditures.

Representative Byrnes, Tennessee, ranking Democrat of the committee, who had asked for specific information in a resolution charged that careful analysis of the report showed that the figures were plainly deceptive, and that they had been manipulated in an effort to mislead the public into the belief that some economy had been effected by the administration.

Joining in the attack Representative Byrnes, Democrat, South Carolina, also a member of the appropriations committee declared that if the president had had opportunity to examine the itemized statement of alleged savings constituting the total of \$136,000,000 he would discover that it is "pure bunk."

Defending the report, Representative Mondell, Wyoming, the Republican leader asserted that Mr. Byrnes (Tenn.) was "quibbling as to details of savings effected, and that some of the economies had resulted quite as much from the vigilance of congress as from the activities of the budget bureau director."

Debt Hangover Madden Says  
Chairman Madden of the appropriations committee said, "somebody had raised the question of veracity as to that while Mr. Byrnes had mentioned deficiency estimates for the year of \$447,000,000 this total could be attributed to the Harding administration the balance being a hangover. Such a multitude of figures were hurled at members that few seemed able to grasp them off hand. Mr. Byrnes enlivened the proceedings, however, by informing the house that Director Dawes had claimed a saving of \$25,000 on the salaries of congressmen and then asked if they could say where."

"Here's an illustration of what Dawes saved the taxpayers," the South Carolina member shouted. "He claimed a saving of \$7,500, authorized to be paid the widow of Senator Proctor, who died in 1908. Mrs. Proctor declined to accept it. She died some years ago. There is no one to inherit it if paid and—yet he saved."

In the same fashion, Mr. Byrnes continued, director Dawes claimed to have saved \$19,000 in building the Pacific and \$100,000 authorized some years ago and which cannot now be used, for enlarging the capitol grounds.

Characterizing "alleged savings as budget bunk," Mr. Byrnes said it was regrettable that the president should be misled by claims of savings "of the paper variety," and that if he believed the budget bureau "he would in justice to the taxpayers urge congress to declare a dividend."

"A causal analysis shows that the claim made by the director of the bureau of budget, acting for the president of savings made by the administration in expenditures from the ordinary routine of the government and the figures submitted by him in support thereof are plainly deceptive," said Mr. Byrnes (Tenn.).

CHICKEN THIEF  
FOILED IN WORK

Early Sunday morning W. H. Johnson of 144 Lincoln avenue was aroused by the barking of his bull dog. Hurriedly dressing he went to the barn with a revolver and made efforts to locate the marauder. However, he was unable to see any sign of the intruder and fired his revolver in the direction of the chicken house. He then kept watch for some time. When he returned to the house he wife told him she saw someone run when Mr. Johnson fired the revolver. Mr. Johnson believes the prowler was after chickens as a neighbor has missed over one hundred in the last few weeks.

VISITED CLUB HOUSE SITE

A number of Jacksonville men made a recent trip of inspection to the site of the proposed Pythian club house at Meredosia. It is the expectation that the work will begin at once and be completed in a week or two. The party included Dr. A. M. King, A. L. Barrows, Charles Rinehart, D. L. Brown, Chester Connolly and Dick Dodsworth.

Brown's Orchestra furnished a musical program at Oak Lawn sanatorium last night, in response to a request of a member of the medical staff there. The program lasted for about two hours and was thoroughly enjoyed by the patients and others connected with the institution.

## OFFICERS GET FINE BOAT RIDE MONDAY

Sheriff Weatherford and Deputy  
Wright Ride White Caps and  
Get Good Scare—Finally Ends  
in a Rest of Alleged Bootlegger.

Sheriff Weatherford and Deputy Sheriff Wright had a fine boat ride yesterday and incidentally got a first hand view of food conditions in the vicinity of Meredosia. However, at the end of a day more or less perfect they captured an alleged bootlegger, a fully equipped still and four barrels of mash.

The officers received a warrant Monday for the arrest of one R. J. Lair who sojourns in a house boat in Mud Slough, two miles north of Meredosia. They immediately started for the river town to bring back their man. Shortly after their arrival their quarry was pointed out to them on the streets of Meredosia.

Accosting the man they told him they had a warrant for his arrest. Mr. Lair asked what it was for and upon being told offered to take the officers to his cabin boat to investigate.

Now neither Mr. Weatherford or Mr. Wright are familiar with the territory around Meredosia. They did not have much of an idea where Mud Slough was aside from the fact that it was about two miles north of Meredosia. But the river is spread out so at the present time and even one familiar with Mud Slough would have been difficult in finding it.

At any rate the officers departed with Mr. Lair in his motor boat for the scene. After running quite a while the officers realized that they were being bilked by Lair. Running up the river about eight miles Lair finally stopped at a house surrounded by water about fifteen feet deep and said it was his residence.

Being thoughtful enough to carry the rope on the boat to the house themselves probably saved the officers from being left marooned in the house. Investigation showed the house to be empty and Lair said he had been forced to move out by the water and was just getting ready to move back in.

Sheriff Weatherford told Lair in plain words that he was lying and that he had better take them to his cabin boat and save trouble. This Lair promised to do. However, he first said he wanted to go across the river to return a flash light to a friend from whom he had borrowed it several days before.

Gets in Brown County  
Consent was made to this and the party crossed the river riding huge white caps on the way. Reaching the other side of the river and his friend's house Lair "allowed he would stay there for the night. He had gotten into Brown county by making the trip. Sheriff Weatherford was mad by this time and he "allowed" that Mr. Lair would do no such thing. He was "persuaded" to return to Meredosia. On the trip across the river it seemed to the officers several times that the boat would capsize and they would be deposited in the river. However, their destination was finally reached.

Then the officers secured another launch and started for Lair's real home. The owner of the boat suggested that they take a small row boat as his large craft would not be able to land them at the Lair cabin boat. This was done and the party soon reached its objective.

It did not take much of a search to locate a fully equipped still, four barrels of mash in the making and all kinds of bottles. How among the bills under consideration were those recommended by joint agricultural commission and those of Senator Capper, Simmons, Democrat, North Carolina, Ladd, Republican, North Dakota, Xorbeck, Republican, South Dakota, Norris, Republican, North Dakota and others.

AGED R. R. SHOPMAN  
KILLS HIMSELF

Clinton, Ill., May 8.—William B. Brown, aged 67, a railroad shopman of this city, committed suicide by sending a bullet into his brain shortly after noon today.

Despondency over domestic troubles is believed to have been the cause. Mr. Brown is survived by his widow and two married daughters.

F. M. BREWER WRITES  
ABOUT SOUTHERN OIL FIELD

F. M. Brewer, formerly of this city, is now at Haynesville, La., a city which has grown in a year's time from 1,000 to 25,000 population. Mr. Brewer writes that he does not receive his mail regularly but says this is not surprising since so many thousands of people must be served thru one small office.

The former Jacksonville man says that life in the suddenly developed oil fields would be a revelation to any one not familiar with it. The Haynesville field spreads over a territory of about ten miles in one direction and three to four miles in the other, and is dotted so thickly with derricks that it looks like a checker board.

## TRINITY RIVER IS AGAIN THREATENING FORT WORTH, TEXAS

Levee Around Arlington Heights Breaks for  
the Second Time in Two Weeks—All  
Residents Warned to Leave the Lowlands  
—Red Cross Again Opens Headquarters

(By The Associated Press)  
FORT WORTH, Texas, May 8.—The levee winding around the banks of the Trinity river in Arlington Heights here broke late today flooding that district for the second time in two weeks. It is believed no persons were drowned as Sheriff Carl Smith of Tarrant county had been directing the work of removing persons from the lowlands thruout the day and had announced, a few minutes before the lowlands in Arlington Heights were flooded, that all residents had abandoned the flooded sections and are safe on the higher ground.

Water broke thru the levee of the Cleark Fork, running around the bank of the river in the North Worth bottoms. With the Trinity river rising at the rate of two feet an hour flood warnings were issued by weather observer, D. S. Landis, and members of the Fort Worth police department warned persons to get out of the lowlands. Hundreds of residents in the river bottoms of the city left their homes fearful of a repetition of the flood which visited Fort Worth two weeks ago devastating homes and causing loss of eleven lives and much property damage.

Flood stage of the river is the thirty feet weather observer Landis said. The gauge marked twenty feet tonight. The weather observer predicted that the river would go to thirty two feet, seven inches lower than the previous flood mark which registered 39.1 feet two weeks ago.

The Red Cross again established headquarters at the city hall to care for flood sufferers.

LEGISLATION TO  
PROVIDE LONG  
TERM CREDITS

Was Discussed by Members  
Of Agricultural Bloc  
Monday

WASHINGTON, May 8.—Legislation to provide long term credits for farmers was discussed at a conference tonight between members of the unofficial senate agricultural bloc and representatives of national farm Republican, Kansas, chairman of the bloc was to endeavor to unite those interested in the legislation behind a composite bill. Senator Capper was authorized to appoint a committee later to present recommendations. The meeting was the first of the bloc since Senator Capper was chosen to succeed former Senator Kenyon of Iowa, as chairman.

A list of dozen long term agricultural bills are before congress with some of the provisions agreeable to various elements in and out of congress. Senator Capper said. These are disagreements also on various points which it is hoped to work out later according to members of the bloc. Among the bills under consideration were those recommended by joint agricultural commission and those of Senator Capper, Simmons, Democrat, North Carolina, Ladd, Republican, North Dakota, Xorbeck, Republican, South Dakota, Norris, Republican, North Dakota and others.

Some acquaintances of the Texas senator expressed the belief that Miss Culbertson had gone to Newark, N. J., with Chesley W. Jurney, secretary of the senator. There was no confirmation from the senator's office that Mr. Jurney had gone to Newark and several of the senator's associates had the impression that the secretary was there in connection with the matter.

Robertson's charges that the detectives who attempted to get him out of the country represented themselves as agents of the department of justice brought from William J. Burns, chief of the department's bureau of investigation a statement.

The charges made by Robertson also brought a statement from G. W. W. Anderson in charge of the Washington office of the W. J. Burns detective agency, that operatives of the agency had been employed to shadow the British war veteran, but he would not say for whom they were acting.

He denied the kidnapping charges.

Certain Chicago papers continually devote a lot of space to attacks on Mayor Thompson. They do not seem to make much headway in putting an end to his influence. The chances for direct representation from each county in the Illinois general assembly thru constitutional convention action disappeared some days ago and seemingly final action was taken. The majority of the delegates were strongly opposed to the plan of having one member of the legislature elected to each county, with additional representation on a population basis. Therefore Morgan county people will continue to vote for Sangamon county candidates or else remain away from the polls.

Representatives of drainage districts along the Illinois river are effecting an organization and expect to maintain an association with headquarters at Springfield. Results of the recent flood were so costly that drainage district people hope to take steps that will prevent such happenings in the future. There are forty-one such districts including about 200,000 acres of land, with a valuation of \$75,000,000.  
Representatives of the districts met recently in Springfield and perfected a temporary organization with W. D. Gibbs of Winchester as chairman. Jesse Lowe of Beardstown and W. F. Gilman of Springfield were named to formulate plans for the creation of a permanent association. The purpose is to study the causes of high water and thru careful analysis of the problems to work out a plan which will make impossible flood conditions of the kind which have caused such immense losses in recent weeks.  
Another meeting is to be held at an early date when it is expected that permanent organization will be effected.

Meg Mackenzie is the orphaned niece and household drudge of two stingy Scotch uncles, who plan to marry her to Joe Dobbs, the blacksmith's son. But a fascinating stranger from the city, an author seeking a quiet place in which to write, appears in the village and wins Meg's silent worship. The natives regard him with suspicion, and when a theft occurs, suspicion rests on him and they mob him, nearly killing him. Meg's uncles are absent and the girl takes him in and saves his life. The uncles return, and finding Meg alone with the injured man, say that she has been compromised and insist upon his marrying her. The writer objects to having this little country girl thrust upon him as a wife, but when he sees that her life will be unbearable in the narrow-minded community unless he saves her from disgrace by marrying her, he consents to the ceremony, telling her that he will take her to his home and have his mother care for her until he can have the marriage annulled. Once out of her old environment the unwanted little bride determines to make herself desirable in her husband's eyes. She succeeds in keeping him, and how she does it makes a sprightly tale.

## To Make Rich Red Blood

Revitalize your worn-out exhausted nerves and increase your strength and endurance

take Organic Iron; not metallic iron which people usually take, but pure organic iron—Nuxated Iron—which is like the iron in your blood and like the iron in spinach, lentils and apples. One dose of Nuxated Iron is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It is like taking extract of beef instead of eating pounds of meat. Nuxated Iron is partially predigested and ready for almost immediate absorption and assimilation by the blood, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach. A few doses will often commence to enrich your blood. Your money will be refunded by the manufacturers if you do not obtain satisfactory results.

Beware of substitutes. Always insist on having genuine organic iron—Nuxated Iron. Look for the letters N. I. on every tablet. Sold by all druggists.

THIS MAN IS REAL FRIEND OF YOUTH

William Allen White Speaks in Optimistic Vein of Opportunities of the Young People—Tells them to Change Things if They Don't Suit.

LAWRENCE, Kan.—In his speech at the All-University convention here recently William Allen White, editor of the Emporia Gazette, urged the students "not to accept the order that is."

"The one blessed privilege of youth is to change things. The one virtue of youth is a passion for change. Nothing is as wicked as a conservative youth," said Mr. White. "When you get older conservatism may be forced upon you by the logic of events. The inexorable grind of life may file down your enthusiasm for a better world, but your first object in life should be to make this world a better world, and in order to make this world a better world you must instill into your heart's blood the belief that this is not the best possible world. It is, as a matter of fact, a fairly good world, but it is only good because youth like you a generation ago decided it was a bad world and should be made better, and it will be a bad world in another generation, unless youth, like you with all the vigor and vision and enthusiasm of youth look upon the faults of this world, and set out to make it better."

"The first thing an engineer should do who would improve our civilization is to dredge it with laughter. Laugh at and see what parts melt, as mere mud shams under ridicule. The play of hoisting and jeering will not crumble the stone or iron or cement; but the putty and paint and plaster will go. Instinctively youth, approaching every civilization in which it must live derides it. The ribald laughter of youth is the only thing that will break down the false construction and monstrous pretense that the past often sets up as institutions under which men are supposed to live. Laughter is not constructive; but, being one of the precious gifts of the high gods, laughter is revealing. Let youth laugh as it will and the world need fear no decay. Only where mirth is checked, where ribaldry is suppressed does decay hasten to break down civilization. When the haw-haw crop languishes, then the jungle creeps in. So go to it, boys and girls. Laugh at this thing we have builded here. Our best blood is in it. We have toiled and moulded to get the old thing up and going. It looks solid, and we old chaps are vastly proud of it. But what do we know? What does any generation know of its own work? Laugh—blast your eyes—laugh while we grit our teeth and glare at you, and so go off stage cursing you. But, jads, remember for what we have done is the one awful menace to the structure before you. It will not withstand your laughter, it will not hold up for all our prayers."

"You may fire when you are ready, Gridley!"

WOULD LIMIT WATER TAKEN FROM LAKE

Congressman Shaw Introduces Measure Purporting to Aid Illinois River Situation.

(By Nevins News Service) WASHINGTON, D. C., May 8.—Continuing his fight against the unrestricted withdrawal of the waters of Lake Michigan by the Chicago Sanitary District thru its canal and the resultant pollution of the Illinois River, Congressman Guy L. Shaw has introduced a bill prohibiting the withdrawal of more than 4,167 cubic feet of water the minute.

The bill authorizes and directs the Secretary of War to prescribe regulations to govern the withdrawal of water from the lake by the Chicago Sanitary District, and to construct at suitable points in the Calumet and Chicago rivers such controlling works as may be necessary to limit the flow of water to the amount specified in the bill.

The passage of the bill it is said will greatly reduce the amount of filth which has been emptied into the Illinois river and will materially lessen the pollution of the water so as to make possible the restoration of animal and life along many miles of the river in which such life has been extinct since the construction of the Chicago Sanitary District Drainage Canal. It is believed also that a strict enforcement of the restrictions upon the volume of water passing thru the canal will make an appreciable difference in time of flood.

Appreciating the necessity for more adequate protection than will be afforded by curtailing the flow of water through the drainage canal, Mr. Shaw has also introduced a bill providing for the appropriation by Congress of \$10,000,000 to be expended under the supervision of the war department and for continuing the improvement of the river.

The bill specifies that not more than \$2,000,000 of this fund shall be expended during any one fiscal year for the construction or repair of any levee, and only after such local interests as will be protected, shall have agreed to contribute at least one-half of the cost of such improvements, the exact amount of such contributions to be determined by the Chief of Engineers of the War Department.

The bill as presented by Mr. Shaw has the approval of the Chief of Engineers of the War Department, who has supervision of all matters relating to the maintenance and improvement of all rivers and harbors.

PRINCE OF WALES TO VISIT JAP TEMPLE

Was Erected in Honor of Former Emperor Meiji—Buildings of Pure Shinto Architecture.

TOKIO.—A visit to Japan's magnificent memorial building and park, dedicated to her beloved Emperor Meiji, is included in the program to be followed by the Prince of Wales during the week he will spend in Tokio as guest of Prince Regent Hirohito and the Imperial government.

Although Emperor Meiji died just a decade ago, his mausoleum and the beautiful four-mile park surrounding it has taken a place in the hearts of the Japanese that is not rivalled by the reverence America holds for her Arlington Cemetery or England for her Westminster Abbey.

This may be traced to the fact that the Meiji Shrine, unlike the national memorials of most other countries, is a product of the present generation. The millions of years to construct it were raised by popular subscription and the tremendous amount of labor entailed was given by the young men of the nation.

The buildings are of pure Shinto architecture. The massive pillars and cross beams of the Torii at the entrance to the shrine, was cut in the Arisan mountains of Formosa and brought to Tokio.

Scores of giant trees, gnarled and twisted by centuries, were taken bodily, with tons of their native earth, from the high-road between Kamakura and Kyoto and transplanted in Meiji park. Volunteer workers and freely given funds accomplished this almost Herculean task.

Although the park was first opened to the public less than a year ago, millions of pilgrims from all parts of the empire have come here to pay their tribute of homage and respect.

Ralph Wilcox of Decatur was looking after his interests in the city yesterday.

F. Zimmerman of Taylorville was one of the arrivals in town yesterday.

### EXODUS OF SWEDES FROM ISLANDS

STOCKHOLM.—The exodus of Swedes from the Aaland Islands to the United States has begun. Several groups of about 50 persons each already are on their way to America.

Sweden appears to be alarmed over this new tide of emigration although it is not large in volume, but no student of the Aaland situation is surprised. The islands, which lie in the mouth of the gulf of Bothnia between Sweden and Finland, were claimed by both countries after the separation of Finland and Russia. About a year ago the council of the League of Nations awarded the islands to Finland.

Sweden accepted the decision, but the Aalanders have never made any secret of this disappearance, the overwhelming majority of them being of Swedish blood. The population of the islands is only about 25,000 and Sweden is anxious to have this stock remain Swedish even under Finnish rule.

The Stockholm press says that the Aalanders are among the best of the Swedish race and to offer, being physically strong, hard working and intelligent and from the American point of view "desirable."

### COW MAKES BUTTER RECORD

DELEVAN, Wis.—Forty pounds of butter in seven days is the production record just announced for a California cow by Malcolm H. Gardner superintendent of testing for the Holstein-Friesian Association of America.

The cow is Miss Aargie Ormsby Segis, a registered Holstein owned by Fred Hartsock, Lankershim, Cal. Her milk production during the seven days was 644.9 pounds. The test was supervised by the California Agricultural College, the California State Association and the National Holstein Association.

Miss Aargie established a world's record over all breeds for two year olds several months ago, producing in ten months 22,084 pounds of milk, yielding 334.7 pounds of butter. It was stated, The daily average for the ten months' test was more than 70 pounds of milk a day, or more than 35 quarts every twenty-four hours. She freshened for her last record the last days of March, only a few months after completing a ten months' record, the announcement stated. Less than fifty cows have produced 40 pounds of butter in a week, according to records of the United States Department of Agriculture.

During the month of June, July and August the Post will hold one meeting a month.

### YEGGS BLOW SAFE IN KEHNER STORE

Secure \$90 in Cash and Checks—Robbery Occurred About Three o'clock Sunday Morning.

Yeggmens secured \$90 in cash and checks when they blew the safe in the grocery store of Charles Kehner on North Main street about 3 o'clock Sunday morning. The men put in an extra heavy charge and the door of the safe was entirely demolished.

The robbery was not discovered until several hours later when Mr. Kehner visited the store. He reported the matter to the police but so far no clue has been obtained.

Chief Kiloran is of the opinion that the work was done by outside men and that they knew their business except that they used much more explosive than was necessary.

In addition to the money the robbers secured two gold watches and a number of legal papers were taken which are of no value to anyone but the owner.

The only clue to the robbers was secured from Lawrence Redburn and Cloyd DeFries, who were preparing to start on a fishing trip. These men reported that they saw three men wearing long coats making their way thru an alley near the store about the time the robbery is believed to have taken place.

**ROUTINE BUSINESS AT COUNCIL SESSION**

Aldermen Name Two Policemen For Nichols Park Duty—Petitions For Sewers Received—More Side Walk Talk.

At the session of the city council Monday night a petition was received for a sewer on West Morton avenue and another on North Diamond street between North street and Lafayette avenue.

The council met at the usual time with Mayor Crabtree, City Clerk Scott and Aldermen McGinnis, Flynn, Loneragan, Ehnie, Chapin, Harmon, Sorrells and Rowe present. Following the usual formalities City Clerk Scott read the petition for the West Morton avenue sewer. It was signed by E. L. Craft, A. E. Kirkman, Lille and Maude Ball, Mrs. Elizabeth Sibley, Ralph Sibley, Geneva Upp and Louise Othling.

The North Diamond petition had the signatures of H. W. Sparger, F. P. Lupien, J. M. DeFries, James Fernandes, J. M. Vail, Claude Vail and J. G. Gouveau. The petitions were referred to the public improvement committee.

The council on the motion of Alderman Rowe appointed Anthony Kennedy and Pete DeFries as policemen at Nichols park. They are to serve under direction of the city police department but will be paid by the park board.

Alderman Ehnie reported that an expert in such matters would be in the city at an early date to confer with J. Capps & Sons with reference to a plan for lessening the amount of smoke from the factory power plant.

Alderman Loneragan made reference to the bad condition on East College avenue at the subway, following every heavy rain and said that the suggestion had been made that if the side walk was raised for several feet that residents east of the subway would not have the necessity of crossing above the tracks at high water time.

Supt. White of the street department said this plan was feasible if the city but had the necessary funds.

The question of sidewalks ordered but not yet laid was again brought to notice by Alderman Flynn. The statement was made that City Engineer Henderson had been unable to give the side walk matters much attention in recent weeks because of paving projects.

Alderman Sorrells is on the highway committee and at the request of Mayor Crabtree will give the side walk question some particular attention within a very short time.

Pearl Iglehart, who had been recently released from the fire department by Chief Hunt, made complaint to the council and said various printed department rules were being broken. The matter was referred to the fire committee. The council adjourned at 8:15 o'clock.

**JOINT RECITAL GIVEN MONDAY NIGHT**

A joint recital was given last night at Music Hall, L. W. C. by Miss Estelle Cover, Violinist, class of 1932 and Miss Grace Terhune, Soprano, class of 1934. The program, a well chosen one gave a great deal of pleasure to a discriminating audience.

Miss Terhune was first heard in a group which included classic numbers from Gluck Hayden and Purcell. These were rendered with poise and good execution and showed the singer to be a student of exceptional ability. This impression was further strengthened by a beautiful rendering, the Micaela Aria from Carmen; in which dramatic feeling and artistic understanding of composers intentions were evidenced by the singer who has the rare gift, fostered by excellent training, of easy delivery of the high tones, both loud and soft.

Miss Cover's first number was the Handel No. VI which was read with excellent style and pleasing tone quality.

In the slow movement of the Viciit tempo concerto in D minor, the violinist overcame the technical difficulties in a manner which showed patient and intelligent study the trill passages being particularly good. Miss Cover has a sensitive and expressive tone and her playing is distinguished by refinement and variety of expression. The accompaniments played by Miss Grace Styles and Miss Margaret Merker were satisfactory in every way.

MISS MARGUERITE K. O'LEARY, of Reading, Pa., who says she has gained eight pounds and can hardly find words to express her praise for Tanlac for the good the medicine did her.

"I am so happy over what Tanlac has done for me I can hardly find words to express my praise," said Miss Marguerite K. O'Leary, who lives with her parents at 1223 Chestnut St., Reading, Pa. "I wasn't exactly what would be called sick, but for a year I had been all run down and sometimes felt so weak and miserable I could hardly hold up my head. I was so nervous the telephone bell or a door closing would startle me so I would tremble like a leaf. "I needed something to build me up and give me strength and energy, and that is exactly what Tanlac did. It gave me a fine appetite and improved my digestion. I gained eight pounds, the color came back to my face, my nerves became normal and I soon felt as well as I ever did in my life. It is simply wonderful that medicine could make such a big change in any one. My friends and neighbors are surprised when they see me now, and no wonder, for I look like a different person. Tanlac is grand and I never intend to miss a chance to say a good word about it."

Tanlac is sold by all good druggists.—Adv.

## LITTERBERRY SCHOOL TERM CLOSED FRIDAY

All Day Picnic Marked Final Day of Term at Litterberry School—Other Litterberry News Notes of Interest.

Litterberry, May 8.—Professor Claude Cully and Miss Margaret Chapman closed a very successful term of school here on Friday. There was a fine dinner served at noon, two long tables filled with sandwiches of ham, chicken and beef Salade and all kinds both vegetables and fruit pickles, eggs in all fancy forms, jelly preserves and good waters from the lemonade well in the school yard. On another table there were delicious pies of all kinds, and cake, dark, golden and some of the whitest we ever saw. Some fine cookies and doughnuts graced the back part of the pie-cake table.

The teachers, Mr. Cully and Miss Chapman were attentive to all and everybody was served. No one went hungry, several baskets of fragments were taken up, and cake and pie were given away. There were several invited guests, the parents and all the little folks, too small to be scholars.

The children all say they have had a pleasant term of school and were fond of their teachers.

About 85 persons took part in this school dinner.

Messrs. Baldwin and Moxon, road commissioners, were in our town Thursday.

After a business session a program was given as follows: Song, Wonderful Words of Life—Victoria. Volunteer Prayers by Members. Instead of scripture, Mrs. Underbrink read "God is not far away from any of us," by Thomas Curtis Clark.

Reading: Music and Its Influence to Church Services, by Mrs. Durrell Crum. Mrs. J. A. Litter read a prayer, "My Prayer Shall Be for Others," by Gen. Booth of the Salvation Army.

Poetry reading, Mothers' Day—Mrs. Ona Crum.

Reading, Mothers' Day Thoughts by Famous Men—Mrs. C. A. Heavers.

Delicious refreshments were served of white cake, chocolate cake, brick ice cream and coffee with all the trimmings.

The Ladies of the Baptist Aid have received a picture of the French orphan boy they are supporting. His name is Gabriel Cazan and he is a sturdy good looking child with round face.

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headache, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit, 15c and 30c.

## NEW ATHLETIC FEDERATION FORMED

Action Taken at Suggestion of Secretary of War—To Promote More Wholesome Sports.

Washington, May 8.—The National Amateur Athletic Federation was organized here today, by representatives of many leading athletic organizations from all sections of the country to promote more wholesome sports in America. The action was taken at the suggestion made by Secretary of War Weeks before the American Olympic association last November altho opposition was offered today by several delegates to adopting the proposed constitution because it apparently usurped some of the authority of their organizations. The constitution was adopted however after it had been explained that no one identified with the effort to create the organization had in mind any idea of usurping the functions of any existing athletic body, and the draft of the constitution was amended to make this specifically clear.

Henry P. Breckenridge, former assistant secretary of war was elected president.

President Harding was elected honorary president and Secretaries Weeks and Denby and Colonel Robert M. Thompson, honorary vice presidents; Directors chosen included, J. F. Byers, U. S. Golf Association, J. S. Myrick, National Lawn Tennis Association; Colonel Palmer E. Pierce, national Collegiate Athletic association; William C. Prout, the Amateur Athletic Union and Mrs. Herbert Hoover, president of the Girl Scouts. Elwood Brown was elected a secretary and H. L. Pratt, treasurer.

## Shield's Sportsmanship in Waiting for Fallen Runner Cheered at Relay Races

Fifteen thousand spectators gave Larry Shields, Penn State miler, an ovation which should have made him forget defeat in the medley race of two and a half miles at the Pennsylvania relay carnival held at Philadelphia. He and Jimmy Connolly of Georgetown ran anchor for their teams. On the last lap they were side by side when Connolly suddenly fell. Shields slowed down, jogged along until Connolly recovered his feet, and waited until the Georgetown man had a lead of three yards. Then he settled down and won by several yards. The patrol judges, however, said that Shields had tried to crowd thru a small opening on the rail and Shields was disqualified.

## MANY SEE GOLF MATCH SUNDAY

Keywood and Masters Defeat Osborne and Flood—Course Is In Excellent Condition.

Quite a large gathering assembled at Nichols Park golf course Sunday afternoon to witness the exhibition match between Jack Keywood and A. M. Masters vs. Marcey Osborne and Leo Flood. The match was won by Keywood and Masters, two up and one to play. The match was for the best ball. Masters and Keywood giving Flood and Osborne the three bisque on nine holes. Jack Keywood made 78 for 18 holes, none of the other players being up to their usual standard. The spectators followed the contest thru the entire 18 holes.

The course was opened in a business like way yesterday and Mr. Keywood called the caddies together for an hour's instruction. Francis Sweeney being made head caddy and Procter his assistant. Seventy four persons played on the course Sunday it was learned thru the new system, which was recently put into effect.

The work of improving the course is being carried forward very efficiently by Mr. Keywood and Greensman Edward Curtis. The improvements that have been made up to date are making a splendid showing, but unless water can be obtained for the greens by the last of next month, most of the work will have been in vain.

Among the recent signers for season tickets at the course are Charles Kahl, Frank Byrns and J. A. Johnson.

## DOES YOUR BACK ACHE?

It is usually a sign of sick kidneys, especially if the kidneys action is disordered, passages scanty or too frequent. Don't wait for more serious trouble. Begin using Doan's Kidney Pills. Read this Jacksonville testimony.  
Wm. H. Pollock, 133 E. Walcott street says: "I had a dull ache through the small of my back. My kidneys acted too freely and the kidney secretions were of a reddish color and contained sediment. I surely felt out of fix all over. I sometimes had dizzy spells when things would seem blurred and I would have to sit down until the spells passed. I used Doan's Kidney Pills as they were recommended to me and it was not long until they relieved all this trouble. I felt much better after a few doses and was cured after using several boxes. Doan's are surely a good medicine and I am glad to recommend them."

## STOCK DEALINGS UNDER MILLION MARK

**NEW YORK, May 8.**—The week in the stock market began with unmistakable signs of a further reaction in the long sustained bull movement. For the first full session in about four weeks dealings fell under the million share level, barely aggregating 950,000 shares.

The foreign situation provoked business, among international currencies. Three of the largest oil-producing and refining companies posted higher prices for gasoline and bunker oil while sharp reductions were announced in four well known types of automobiles.

Middlewest railroad tonnage exceeded for the most part the movements of last year's corresponding period and eastern traffic was fairly large with the exception of coal haulings.

Domestic Oils and Mexican Petroleum, as well as the motors equipments and junior rails yielded most easily to intermittent pressure. Steels afforded moderate resistance but ultimately gave way.

Coppers helped to sustain the market with a few miscellaneous specialties but a heavy tone ruled at the close.

Money rates showed unexpected firmness. The 4 per cent opening quotation for call loans remained at that price until just before the market's close when it was demanded of belated borrowers.

Demand sterling fell to 433 1/2 below the record quotation of the previous week. Allied exchanges to 15 points but the grain market lost only a fraction.

Today's bond market developed irregularity in smaller and less diversified calling.

Country wide distribution by a syndicate of bankers of the \$75,000,000 federal land bank 4 per cent bonds was reported to be progressing favorably.

Total sales of bonds, par value, aggregated \$15,043,000.
